

4CH Wireless NVR Kit

8005BT

1080P

Wireless open range transmission distance is 500m/1640ft in the case of IPC without cascade, support IPC cascade, and cascade wireless transmission is more further.

Transmit 500m/1640ft in outdoor

When IPCAM1 needs to be installed where the NVR signal does not cover, But there is a better signal IPCAM2 in the middle. You can power on IPCAM1 near to the NVR and set IPCAM1 cascade to IPCAM2. After finished setting the cascade connection. Then install IPCAM1 to the preset location you want.

Camera auto-pair, without your slightest effort

After being powered, four cameras will connect to the in the same system automatically. No wiring among them is required at all for local viewing. Use Ethernet cable to connect and router, and you'll get remote viewing access.

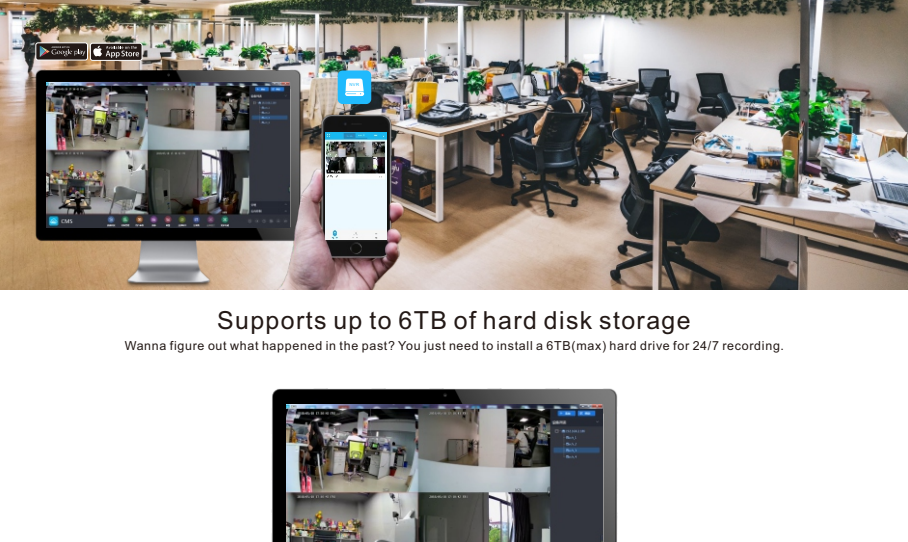

IP55 rating to withstand severe weather conditions

IP55-rated housing is specially designed for camera to ensure protection against all types of bad weather. Year-round security monitoring never stops due to 14°F - 140°F operating temperature

Multiple access for local and remote viewing

View and control your security system locally by connecting it to a monitor, or via IOS & Android App on mobile devices remotely.

Supports up to 6TB of hard disk storage

Wanna figure out what happened in the past? You just need to install a 6TB(max) hard drive for 24/7 recording.

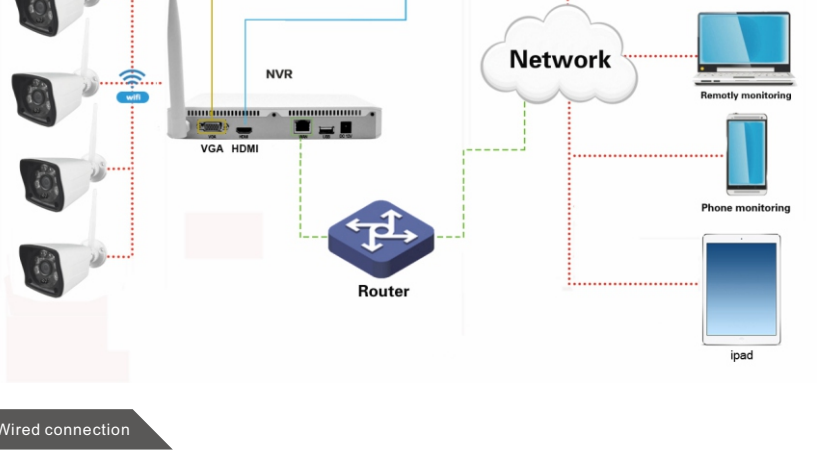

Clear night vision for 24/7 surveillance

6 IR-LEDs provide 66-feet (20-meter) IR range for you to see clearly in complete darkness. Around-the-clock guard helps deter the criminals under the cover of night and let you rest easy anywhere anytime.

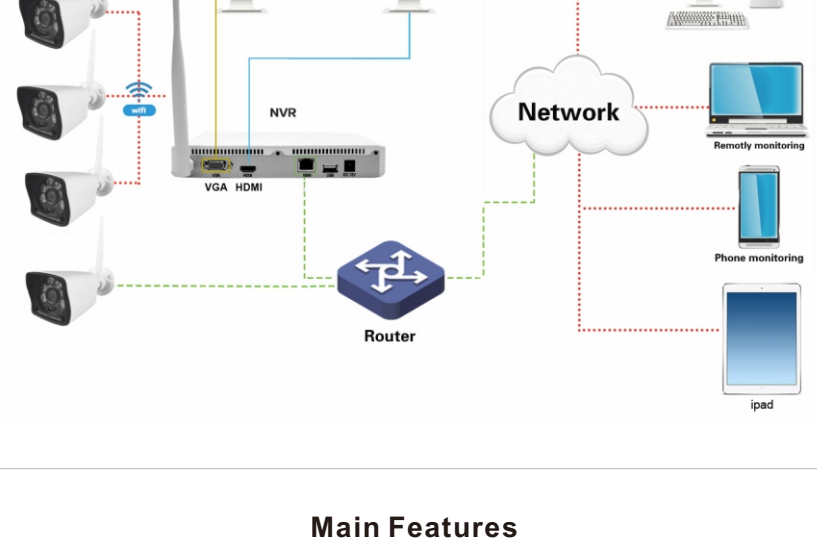

Two connection methods

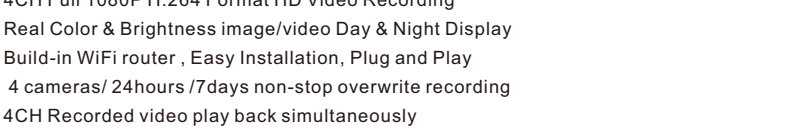

Wireless connections

Wired connection

Main Features

- 4CH Full 1080P H.264 Format HD Video Recording
- Real Color & Brightness image/video Day & Night Display
- Build-in WiFi router , Easy Installation, Plug and Play
- 4 cameras/ 24hours /7days non-stop overwrite recording
- 4CH Recorded video play back simultaneously
- Support max upto 1 x 4TB hardisk storage capacity
- Multiple recording modes: manual, schedule, Motion Dection activated
- 20 meter night vision range with IR-cut filter
- Outdoor camera waterproof rate IP66 with wireless range upto 500 m/1600ft
- VGA & HDMI Video output function for bigger monitor
- Available for iPhone , Android and PC client view

SPECIFICATIONS

Item	Specification
Camera	
Image sensor	1/2.9" CMOS
Effective Pixel	1920*1080P(MAX)
Horizontal Viewing Angle	H:85°
IR Range	<20m(4mm Lens)
Interface	DC JACK (05.5mm) RJ45
Power supply	12V 1A
Ingress Protection	IP55
Receiver	
Storage Format	H.265
Storage Video Resolution	1920*1080P(MAX)
Interface	USB 2.0 DC JACK(05.5mm) HDMI out RJ45 VGA out
Recording Media	USB 6T (MAX) 12V/2A
RF Characteristics	
RF Range	2400-2500MHz
Wireless Transmission	500m (Outdoor)
General	
Operation temperature	-10°C-50°C
Storage temperature	-20°C-60°C
Operating humidity	15-85%RH
