HEAVY DUTY INTELLIGENT PADLOCK

Anti-Tampering Security Technologies

BLE-WiFi Gateway/Hub

TAMPERING ALERTS & NOTIFICATIONS

- ANTI Impact
- ANTI Cut
- ANTI Flame

U.S. Pat. No.: 9,121,199 B2 & D721,261 S

PATENTED eGeeTouch 5th GEN and Anti-Cut Weatherproof Smart Padlocks Are Robust & Rugged, Designed for OUTDOOR & COMMERCIAL use, Waterproof (IP66 Rating) & Freeze-proof with Shackle Cutting Strength & Corrosion-resistant pass highest Grade-6 ASTM salt-test.

While eGeeTouch® HEAVY-DUTY INTELLIGENT Padlock is the latest upgrade of our pioneering and award-winning patented innovations with a LARGER PHYSICAL SIZE embedded with ANTI-TAMPERING TECHNOLOGIES and is built with a full rubber jacket to protect from corrosive weather conditions. Any attempts of TAMPERING by CUTTING OFF its shackle, HAMMERING or BURNING its metal body would instantly trigger an ALARM or ALERT NOTIFICATION to lock owners and/or administrator(s) at anytime, anywhere. These patented features elevate this padlock to the HIGHEST LEVEL of SECURITY UNSEEN previously and UNMATCHED by any conventional padlocks.

Our eGeeTouch® Smart Padlocks are built with STATE-OF-THE-ART DUAL intelligent proximity & remote authorization technologies that deliver unprecedented high-security ASSIGNMENTS, for eg. REVOKING, and TRACKING of users accessed functions unlike any traditional keyed/combination padlocks.

Integrated with both patents and proprietary authentication protocols, capable of generating up to 8 levels of Administrator's authorization and over several hundred thousand user-defined encrypted IDs. Multiple levels of Administrator's authorization to ONE SHARED smart lock with FREE app or Commercial PAID app software bundled with Web-based Intelligent Access Management Software.

OTHER SMART FEATURES

AUDIT TRAIL LIST

Trace WHO, WHEN & WHERE access was made

MULTIPLE UNLOCKING METHODS

Choice of Bluetooth Devices for eg. smart phones, smart watches, and NFC fobs & cards, etc...

ONE-TIME/ TEMPORARY ACCESS

A one-time or temporary access to any registered user(s)

BATTERY BACKUP

Use BACKUP USB port to power up and unlock as per normal when battery runs out
