

# ASURESPACE™

## DRIVING TODAY'S DIGITAL WORKPLACE

### ROOM & RESOURCE SCHEDULING REIMAGINED

▶ **DYNAMIC SOLUTIONS FOR THE MODERN WORKFORCE**

Solve your most challenging reservation workflow issues with the most flexible, comprehensive scheduling software on the market. AsureSpace helps organizations maximize their real estate and resource investments while driving employee engagement and productivity.

▶ **REAL ESTATE ANALYTICS & OPTIMIZATION**

Did you know the average firm has 30-50% more real estate than they actually need? AsureSpace sensor technology gives you 24/7 visibility into your real estate utilization and occupancy trends, providing insight into the space your employees actually need.

▶ **AGILE SOLUTIONS FOR AN AGILE WORKFORCE**

No matter the size of your organization, collaboration is key. AsureSpace is scalable, cloud-based and mobile. With a responsive, intuitive user interface and easy-to-implement integrations, our solutions work the way your people do: anytime and everywhere.

AsureSpace is a cloud-based, integrated scheduling platform designed to increase efficiency and drive productivity in today's dynamic, digital workplace. From desk-sharing initiatives and real estate optimization to floorplan design and service management, AsureSpace offers cutting-edge technology, integrated hardware and industry-leading expertise in implementation and change management. Flexible, robust and scalable, AsureSpace empowers your workforce to connect and engage in the office or around the world.

### ROOM & RESOURCE SCHEDULING

A mobile, global workforce demands tools to not only meet their functional needs, but also that fit in their tech-savvy world. Our online scheduling software and mobile app meets their demands with easy-to-use interfaces that make scheduling a breeze.

- Powerful scheduling from multiple devices
- Configurable reservation workflows
- Robust catering and service management

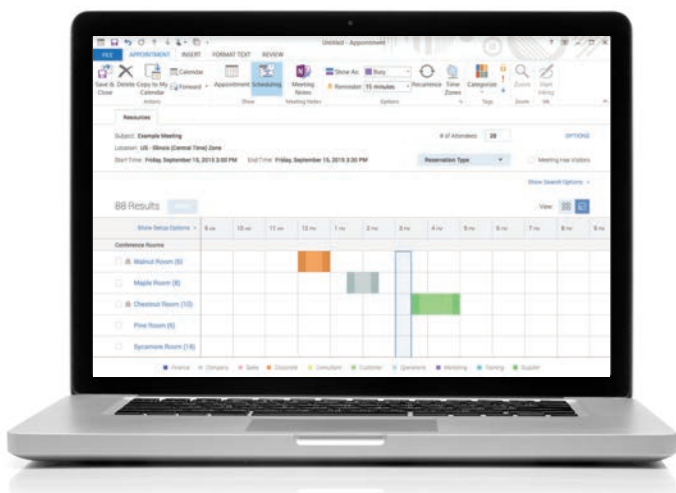

## REAL ESTATE OPTIMIZATION

You can't manage what you can't measure. AsureSpace delivers a 360 ° view of your real estate investment with real-time data on utilization and occupancy. Leverage analytics and reporting to identify utilization trends and make data-driven decisions about the space your employees actually use.

- Heat sensors deliver real-time data on occupancy
- Gain visibility to underutilized space
- Yield significant ROI in lease savings

## INTEGRATED SOLUTIONS FOR WORKPLACE PRODUCTIVITY

Asure Software's fully integrated scheduling solution can help you achieve your efficiency and productivity goals by reducing manual processes, improving collaboration, enabling workflows and meeting the needs of your mobile workforce.

- Drive worker engagement with integrated collaboration tools
- Integrate resource scheduling with Microsoft Outlook
- Streamline operations with visitor management
- Touch panels, interactive kiosks and digital signage

## CLOUD-BASED SCHEDULING SOFTWARE

Our technology is completely hosted and delivered directly to you by Asure Software. Your technology staff is free from time-consuming implementations and ongoing maintenance. Your users can access the power of our cloud-based scheduling software from multiple devices, giving them anytime, anywhere access to the resources they need.
