# **LBV Glass Fibre Litter Bin Range**

A range of traditional hand finished litter and recycling bins that will never rust.

LBV/20

Our LBV range of litter bins are manufactured from glass fibre composite (GFC), which is ideally suited for street furniture due to its strength and durability.

LBV/9

The LBV/9 is completely unaffected by extreme weather conditions and salt water, which allows this bin to be placed in a coastal or roadside location.

LBV/5

The LBV/5 offers a slimline design with an increased capacity of 154 litres, featuring two galvanised steel liners to collect either one or two waste streams.

LBV/WBH20

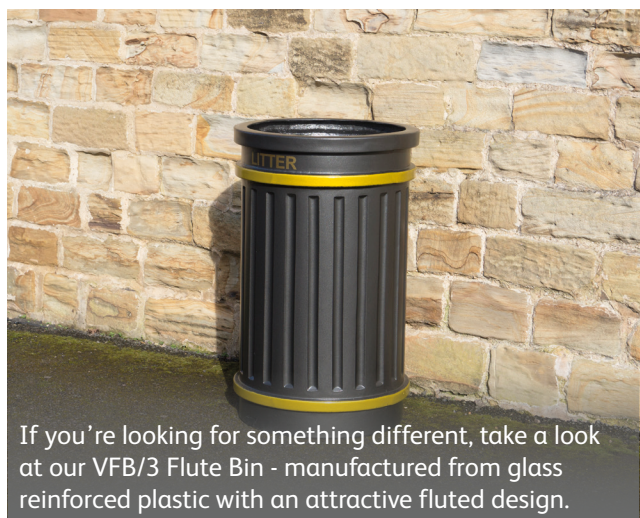

The LBV/WBH20 is a large open top litter bin designed with a 198 litre galvanised steel wire basket, ideal for parks and cemeteries.

LBV/14

The LBV/14 offers a unique hexagonal shape with an 84 litre capacity. The open top aperture allows waste to be deposited from any angle.

If you're looking for something different, take a look at our VFB/3 Flute Bin - manufactured from glass reinforced plastic with an attractive fluted design.
