

Rental Services

Cold storage

Temperature controlled storage
and warehousing solutions

Cold storage

Low to ultra-low temperature solutions

Trane offers cold storage solutions with extensive applications in storage, warehousing and testing. No other product delivers an extreme temperature range between +40°C and -70°C with such accuracy. Our solutions can be adapted to perfectly meet your needs with options including telematics, remote monitoring and Controlled Atmosphere.

Needs

Short term storage

Events, production peaks or fast-tracking a permanent cold store project.

Long-term warehousing

When a capital investment is not the preferred option, Trane EaaS is the flexible and dynamic solution of choice.

Applications

Any raw material or finished product requiring temperature controlled storage to preserve or increase shelf life.

R&D applications where a temperature controlled environment is required to enable Accelerated Life Testing (ALT) of critical components.

Food and Beverage, manufacturing sites

Warehouses

R&D material and high-tech components

Pharmaceuticals, Bio-life, Healthcare

Festivals/ events/ exhibition centers

Supermarkets

Trane low temperature technologies offer solutions for multiple applications

Trane Cold Storage solutions can maintain optimal temperature with minimal fluctuation. With extra insulation, off-site preservation ensures protection of product quality.

Large Storage Capabilities + Ultra-low temperatures

Key Features

- **Low to ultra-low temperature** capability
- **Precise temperature** control
- **GDP Pharma certified**
- **Fully electric** operation, with optional diesel generator back-up
- **Factory fitted telematics:** Real-time remote monitoring, 24/7 (option)
- **Also available in ISO container** sizes 10', 20' and 40'
- **Easy to use/easy to service:** Simple design and most advanced controller in the industry

Low Temperature Fan Coil units for food storage

Trane EaaS (Equipment As A Service)

Trane Services

The real expertise of a manufacturer

- Systems approach
- Dependable installations
- Energy saving solutions
- Operating cost optimization
- Chiller plant management solutions
- Chilled water production solutions.

At Trane, we are committed to providing a comprehensive portfolio of HVAC solutions throughout your system lifecycle.

Breakdown resolution

No one plans for breakdowns, but when they happen you need the right partner. Our expert Service Engineers use the latest diagnostic tools to guide you through your options to Repair, Renew, Replace or ReThink.

Secure operations

At every point during the lifetime of your equipment - installation, commissioning, maintenance or breakdown - Trane can offer an effective solution with commissioning, first-aid kits and service agreements.

System upgrade

Trane Building Advantage

Trane is committed to bringing the latest technological advantages to our customers through a wide portfolio of solutions which increase the Efficiency, Reliability and Sustainability of their HVAC plants. Our Service Engineers use their expertise together with the latest diagnostic tools to future-proof your system and make it “better than before”.

Equipment rental

For special events, exceptional needs or when you want to ReThink HVAC management, Trane Rental Services have the right solution. With our extensive fleet of equipment, we can perfectly match your temporary heating and cooling requirements.

Contact us

With over 1000 of the best trained sales engineers and service technicians in the industry, Trane is in the best position to serve your needs. Just call us and we will help you configure the right cold storage solution.

Trane – by Trane Technologies (NYSE: TT), a global climate innovator – creates comfortable, energy efficient indoor environments through a broad portfolio of heating, ventilating and air conditioning systems and controls, services, parts and supply.
