Intelligent, Touch Screen
Fire Alarm Panels

eurotech[®]
fire systems limited

The Toccare® Intelligent Touch Screen Panel demonstrates the latest in fire alarm technology - the world's first fully touch screen, EN54 certified fire alarm panel. Toccare® by Eurotech is the first range of truly aesthetically designed fire alarm panels developed to slip seamlessly into high-end, exclusive surroundings.

Its unobtrusive appearance sits perfectly in design-led apartment buildings, prestigious hotels and high-end office buildings. With a slick black or white exterior, and customisable backlit LED lighting, the Toccare® range is without doubt the sleekest, most innovative fire alarm panel range available in the fire industry today.

Compatible with both wired and wireless detection or a hybrid mix of both and the ability to facilitate up to 240 addressable devices per loop, the powerful Toccare® Fire Alarm Panel is an intelligent choice for any large, upscale building requiring an aesthetic yet robust, accomplished fire safety system.

Why Customers **Love** This Panel

Adaptive Design

Clean, non-imposing appearance to fit seamlessly with the building's interior design.

Custom Lighting

Fully customisable LED backlights to match seamlessly with the decor.

Touchscreen

A responsive touchscreen with an easy-to-use interface.

Variety of Languages

A vast number of characters and symbols, up to 11 languages.

End-User Access

The end-user can access details such as events, alarms, faults and more, with the use of their own five digit password, different to the engineer's access code.

Flush Mounting

To further enhance the aesthetics, a recess bezel is available.

Why Engineers **Love** This Panel

Brand Identity

Your own full colour, high definition logo can be implemented into the fire panel display.

Substantial Capability

With the Lite panel accommodating up to 120 devices, the Mini up to 240 devices and the main Toccare panel up to 2160 devices across 9 loops, Toccare suits all system sizes.

Engineer's Dream

Auto programming of the panel's loop devices can be completed with as little as four touches from power up.

Cloud Programming

The unique cloud-based panel configuration storage allows for remote viewing and easier technical support.

Expandability

For easier management on a large scale fire system, up to 128 panels can be connected to a fault tolerant network.

Local Programming

Fully configurable and programmable, including cause and effects, via the panel's touch screen.

Toccare Intelligent Fire Alarm Control

The Toccare® Touch Screen Panel is one of the slickest fire alarm panels on the market. Its clean, minimalistic design aesthetic combined with innovative features and functionality makes it ideal for architects, prestigious buildings and high-end sites where presentation is key.

The end-user can access details such as events, alarms, faults and more, with the use of their own five digit password, different to the engineer's access code.

- ✓ Expandable up to 9 loops, with up to 240 devices per loop.
- ✓ Connect up to 128 panels on a fault tolerant network to manage huge systems with more than 250,000 devices.
- ✓ Up to 192 logic detection areas and 96 logic functions for cause and effect programming.
- ✓ 56 zone LEDs as standard for the UK and Ireland

Toccare Mini Intelligent Fire Alarm Control Panel

The Toccare Touch Screen Mini Panel is the Toccare panel's smaller brother. It comes in a compact, convenient package, creating an attractive look that still includes excellent features. With its clean, minimalistic design, it fits seamlessly into any building where aesthetic compatibility is key. The Mini Panel is fully compatible with both wired and wireless devices.

- A dedicated single loop with the capability to connect up to 240 addressable devices
- The Mini Panel offers up to 15 repeater panels, enabling you to access the functions of the panel from remote locations
- Fully networkable – 128 nodes (fault tolerant)
- The Mini Panel offers 16 zone LEDs
- Local programming or cloud-based configuration

Toccare Lite 120 Device Intelligent Fire Alarm Control Panel

This fire alarm control panel comes in a smaller package, yet still delivers reliable usage for the end-user. With a clean and more minimal design than most fire alarm control panels it fits into any building and offers aesthetics you will be proud to show off. The Lite 120 Device panel is fully compatible with both wired and wireless systems.

- A dedicated single loop with the capability to connect up to 120 addressable devices
- Budget option of the Mini panel
- Not networkable
- The Lite Panel offers 16 zone LEDs

Toccare Repeater Fire Alarm Control Panel

The Toccare Repeater panel is an aesthetically pleasing device that repeats information from the main control panel.

Being touch screen, Toccare is sure to complement the design of hotel lobbies, prestige homes and other modern environments.

LEDs surround the touchscreen display, which can act as a mood light for many interior spaces.

A compact design, just 210mm x 120mm x 30mm, that meets the compromise between aesthetics and fire safety!

- Connect up to 15 repeater panels per system panel, enabling you to access the functions of the panel from remote locations.
- Wall or flush mounted to suit your client's site.

The
eurotech[®]
Advantage

As a Eurotech Advantage Partner you will benefit from:

- ✓ Free lifetime equipment warranty
- ✓ Free wireless programming
- ✓ Free site surveying
- ✓ Free site support allowance
- ✓ Free panel branding options
- ✓ Joint marketing and promotions
- ✓ Special periodic offers on equipment
- ✓ Preferential pricing on delivery and returns
- ✓ Preferential access to:
Design support, panel programming and commissioning, drawing and schematics

“ We chose the Toccare panel for our client as it’s visually pleasing compared to other panels on the market and suited the premises where it was required. My client was very impressed with the look of the panel and how simple it was to use.
